New Warehouse Construction Project in Ayutthaya, Thailand Completed

Our subsidiary in Thailand, Rojana Distribution Center Co., Ltd., completed its new warehouse in Ayutthaya.

We, Sumitomo Warehouse Group, provide various logistics services based in Ayutthaya, Bangkok, Laem Chabang and Suvarnabhumi International Airport in Thailand.

In Ayutthaya area we already own and operate three warehouses, but steady logistics demand is expected in the medium and long term because the area is located near the city of Bangkok, which makes it suitable place for distribution center. Considering such circumstances, we built the fourth warehouse in this area. With this new warehouse, our total floor area in Ayutthaya reached about 16,000 square meters.

The new warehouse, as well as the existing warehouses, is under strict security control by surveillance cameras etc. We will utilize these four warehouses to respond to strong demand for logistics including distribution processing services.

Besides the above, we will complete the second warehouse construction in Laem Chabang area in November this year. We will take such expanding logistics demand in the new warehouses to expand our business in Thailand still more.
